

TRansition paths to sUstainable legume-based systems in EEurope

3rd Continental Legume Innovation and Networking (LIN) Workshop

Integration of the results from SWOT analysis to the chain level

Marko Debeljak
Jozef Stefan Institute

Ljubljana, 16-17 September 2019

Integration

Results of the sustainability analysis of **individual** links can not be **simply summed up** to the **chain** level.

Information about the **state of the chain** is very **relevant** for **top decision** makers: **Ministries, Agencies, Chambers, Unions, etc.**

Results of links' analysis provide **inputs** to **Integrated Assessment modeling** for development of **strategic decisions on Sustainable development**

Sustainable development of agri-food chains

Regulatory organizations

Education and Knowledge transfer

Financial institutions

Public participation

Sustainable development of agri-food chains

Regulatory organizations - Matjaž Gerkman

Education and Knowledge transfer – Emil Erjavec

Financial and business mechanisms – Jurij Giacomelli

Public participation – Anamarija Slabe
